

Where there's a Will...

The Grant Road Coalition believes that Tucson is about to embark on a model urbanization project! The residents along the Central Segments have been convinced that the Grant Road project could create a linear park for Tucson's Central Core repurposed from the remnant parcels along the project's path. It was first a dream, then a campaign and now a common partnership among residents, city and state entities. **We thank the Task Force and the forward thinking city and state officials who are helping with this effort.**

There's a Way!

The path so far:

- 2016 spring **A white paper** presenting the Linear Park concept, cover sheet attached*
- Lots of meetings, lots of work
- 2016 **A proposal** to National Park Service – not granted
- 2017 July **A meeting** with city officials and RTA which removed the requirement for the City to reimburse RTA for the cost of the remnant parcels - if the parcels could become a dedicated park
- 2017 July **Tucson Clean and Beautiful** is named as the entity which could implement the funding if a grant proposal was successful
- 2017 Sep **A proposal** to AZ Forestry Division – pending December 2017, cover sheet attached*
- 2017 Sep **A UA project**-UA graduate school landscape class project to create a vision for the park
- 2017 November - A meeting for all participants to shine a light on the rest of the way! WE are hopeful and excited about the future!
