

## APPLICATION FOR NEIGHBORHOOD WATCH SIGNS

Once you have your first meeting and have met the participation requirement, complete this form. Be sure all members have complied with the majority of the security recommendations taught at your first meeting. We have found that Neighborhood Watch groups are only successful when members make a commitment to the program by upgrading the physical security of their home; we do not require expensive alterations, just basic security measures. When you complete the form, send it to the patrol officer in your division who has been working with you and your group for verification. Once your group has been sanctioned, your Neighborhood Watch sign will be ordered and installed. Neighborhood Watch signs are free of charge to the group; they remain the property of the City of Tucson.
