The applicant's property is an approximately 6,933 square foot lot zoned MU "Mixed Use" and is developed with a mobile home and detached garage. The owner constructed the detached garage without prior zoning approval or permits. The applicant is seeking the necessary zoning approval to allow the garage to remain as constructed. Tucson Unified Development Code (UDC) sections applicable to this project include, but are not limited to, Section 4.7.23 and Table 4.8-7 which provide the criteria for residential development in the MU zone; Sections 6.3.4 and 6.4.5 which provide the dimensional standards and rules of measurements for all principal and accessory uses, buildings, and structures; and Section 6.6.3 which provides the standards for accessory structures of a residential use. The applicant is requesting variances to allow the garage to remain as constructed with the total gross floor area of all detached accessory structures (200 square feet or larger) exceeding 50% of the total gross floor area of the principal structure, with a building height that exceeds the maximum allowed for an accessory structure, and with reduced side street and rear perimeter yard setbacks, all as shown on the submitted plans.
